1. Detailed Considerations

- 1.1 The application was deferred from the meeting on the 4th March as the Committee had concerns that the current measurements applied for i.e 1.12.m width would not allow for staff members to walk safely on the inside of the barrier to serve customers.
- 1.2 The applicant is proposing to change the size of the tables to 0.50m width which will allow 0.62 cm for staff to pass inside the barriers.
- 1.3 The Committee also had concerns that the photographs previously submitted. Appendix A1 attached did not show a break in the barrier where staff/customers would enter and exit.
- 1.4 The applicant has submitted a drawing Appendix A2 showing the proposed changes to the barrier.
