Hello, in response to [REDACTED] video evidence , I can clearly tell you that Oceanic Bar has been closed down for refurbishment since 3rd of September.

Teams of police randomly walked in only to meet us doing refurbishment. You can clarify this from police licensing team, they must have a report for this.

Furthermore, the issue of cars that are packed on the high street, honestly this wouldn't have occurred if the people that are concerned had designate some security men in front of there business offices.

Attached is the pictures of what inside oceanic bar looks like before the refurbishment
