

PLANNING COMMITTEE  
Thursday 11<sup>th</sup> April 2019

**- ADDENDUM TO AGENDA -**

Item 6.1      18/05930/FUL: 2 Vincent Road, Croydon, CR0 6ED

This item has been WITHDRAWN from the agenda.

Item 6.2      18/02663/FUL: Stewarts Plastics, Waddon Marsh Way, Croydon  
CR9 4HS

The total number of proposed parking spaces (in table 1.1 and paragraph 8.35) should state “67” not “58.”

Paragraph 8.36 states that all parking bays are to be capable of being converted to electric charging bays, with electric charging points to be secured by a condition. The updated plans show that 55% of parking spaces (37 spaces) will have active or passive provision, of which 16 spaces would be active charging, and 21 passive (i.e. infrastructure installed but not activated). Details of the charging points are to be secured in the s.106 agreement, with the intention that Rapid Charging points for Heavy Goods Vehicles will be provided depending on occupier requirements.
