Please accept our apologies for the late submission of this response. As you may be aware, the Council is currently undertaking an independent strategic review of group companies, including Brick by Brick. That review is examining all aspects of the development pipeline and it will take into account the Council’s financial position, the changes in market conditions and increased demands in light of the Covid 19 pandemic and a changing funding climate. Until the review is complete the council is unable to give a meaningful response to the question asked.
