To the Croydon Licencing Authority,

I am writing with regards to the application notice by Balachandran Seelan for a premises licence for the proposed business "Lambard Stop" at 6 Beddington Terrace Mitcham Road, Croydon, CR0 3HG. I object to this licence as we already have an off-licence serving this road and local community and has been doing so for many years. Not to mention the numerous other off-licences in the neighbouring area that also hold off-licences (such as other convenience stores as well as BP and Sainsbury's Local). This is also a very busy road, and at the proposed unsocial hours it will only introduce more noise pollution and problems with antisocial behaviours. It is not fair to us as residents to have more noise and lighting when we are trying to sleep in an already busy area.

Thus, I strongly object against this application for premises licence and hope that there is some empathy with us locals. Many thanks.

Yours sincerely,
