

MINIMUM REVENUE PROVISION POLICY STATEMENT FOR 2020/2021

1. The Council has given regard to Guidance issued by the Secretary of State under Section 21(1A) of the Local Government Act 2003 which was revised on 2 February 2018.
2. The Council's MRP Policy Statement for 2020/2021 is to be as follows:
 - 2.1. For the proportion relating to historic debt (incurred up to 31 March 2008) and to Government-supported capital expenditure incurred since, the MRP policy will be to adopt Option 1 - the Regulatory Method by providing a fixed amount each financial year, calculated at 2% of the balance at 31 March 2015, reducing on a straight line basis so that the whole debt is repaid after 50 years.
 - 2.2. For unsupported borrowing undertaken since 1 April 2008, reflected within the CFR debt liability at 31 March 2021, the MRP policy will be to adopt Option 3 – Asset Life Method – Annuity method from the Guidance. Estimated life periods will continue to be determined under delegated powers. To the extent that expenditure is not on the creation of an asset and is of a type that is subject to estimated life periods that are referred to in the Guidance, these periods will generally be adopted by the Council. However, the Council reserves the right to determine useful life periods and prudent MRP in exceptional circumstances where the recommendations of the Guidance would not be appropriate.
3. As some types of capital expenditure incurred by the Council are not capable of being related to an individual asset, asset lives will be assessed on a basis which most reasonably reflects the anticipated period of benefit that arises from the expenditure. Also, whatever type of expenditure is involved, it will be grouped together in a manner which reflects the nature of the main component of expenditure and will only be divided up in cases where there are two or more major components with substantially different useful economic lives.
4. Where schemes are not fully completed at the end of the financial year, MRP charges will be deferred until the schemes are complete and the assets are operational.
5. MRP on Public Finance Initiative (PFI) schemes debt is to be charged on an annuity basis over the remaining life of each scheme.
6. The Council retains the right to undertake additional voluntary payments if required (Voluntary Revenue Provision – VRP).
7. There will be circumstances when the Council will not be making a provision for the repayment of debt.
8. The Authority will provide loans on a commercial basis which will be used to fund capital expenditure and thus should therefore be treated as capital expenditure and a loan to a third party. The CFR will increase by the amount

of the loans advanced and under the terms of the contractual loan agreements are due to be returned in full with interest paid. When these funds are returned to the Authority, the returned funds will be classed as a capital receipt and offset against the CFR, which will reduce accordingly. As this is in effect a temporary arrangement and the funds will be returned to the Council in full, there is no need to set aside prudent provision to repay the debt liability in the interim period, so there is no MRP application. The outstanding loan will be reviewed on an annual basis and if the likelihood of default increases, a prudent MRP policy will commence.

9. The Authority is purchasing commercial property to be held as part of its Investment Property Portfolio. The properties are held for investment purposes and are managed on a fully commercial basis. The purchase of these properties will be treated as capital expenditure and will increase the CFR. The Council is holding these properties solely for investment purposes and they are leased to tenants on a fully repairing basis. As the Council has the ability to sell these properties to repay any outstanding debt liabilities related to their purchase, there is no need to set aside prudent provision to repay the debt liability in the interim period, so there is no MRP application. The market value of the assets will be reviewed on a regular basis and if the asset value significantly decreases, a prudent MRP policy will commence.
10. The Council's cash investment in the Real Lettings Property Fund LP under a 7-year life arrangement is due to be returned in full at maturity with interest paid on outstanding balances annually. The cash investment will be treated as capital expenditure with the Council's CFR increasing by this amount. At maturity, the funds returned to the Council will be treated as a capital receipt and the CFR will reduce accordingly. As this is a temporary arrangement over 6 years, and as the funds are to be returned in full, there is no need to set aside prudent provision to repay the debt liability in the interim period, and therefore no MRP application is required.
11. Loans borrowed from Amber Green LEEF 2LLP or an alternative source to fund energy efficiency and carbon reduction schemes at certain educational institutions within the Borough will be recovered in full from these institutions. As such, there is no need to set aside prudent provision to repay the debt liability in the interim period, and therefore no MRP application is required.
