

The driveway is quite dark at that time of the night as it is not lit or maintained. The other concern I have is the number of Pizza delivery mopeds blocking the entrance and exit to this drive way as there is access to at least 15 flats at the back. Should there be a fire access to the back might become blocked.

Think you should visit the driveway next to Grillo at 11pm on a Friday or Saturday night.

It is a public nuisance with the mopeds coming in and out and riding on pavements. The sound of these mopeds surely will be enough to cause a public nuisance to anyone.

I fear for the residence who live behind that area.

I do believe that you should visit the area at night 11pm that would be a good start.

I don't believe that you should grant licensing for 12am-2am for this place. You have flats above number 74 and surrounding areas that also deserve some peace from the Mopeds coming out of the driveway.

Last Sunday we had a crowd of people that was having a BBQ at the back of the Grillo and the car park was quite crowded with cars. This caused a lot of disruption for residents that live in that area.

Grillo was opened throughout the Lockdown I don't believe that they would have been heavily impacted as most eateries.

May I suggest that if you do approve of this obscene hour of opening to increase the rates of the place.
