1. SUMMARY OF REPORT

- 1.1 This report sets out recommendations from Scrutiny for the consideration of Cabinet. These recommendations originate from the meeting of the Streets & Environment Sub-Committee on 8 October 2024.

2. RECOMMENDATIONS

- 2.1 For the reasons as set out in this report and appendices, the Executive Mayor and Cabinet is **RECOMMENDED** to agree to:
1. Receive the recommendations arising from the meeting of the Streets & Environment Sub-Committee on 8 October 2024 (Appendix 1).
 2. To provide a substantive response to the recommendations (a Scrutiny Stage 2 Report) at the Cabinet meeting on 12 February 2025.

3 REASONS FOR RECOMMENDATIONS/PROPOSED DECISION

- 3.1** Part 4E of the Council's Constitution: Scrutiny and Overview Procedure Rules (paragraphs 8.5 – 8.7) and Section 9FE of the Local Government Act 2000 requires the executive to consider and respond to Scrutiny and Overview reports within 2 months, beginning from the date on which the executive received the report or recommendation.

4 BACKGROUND AND DETAILS

- 4.1** To provide additional context for the recommendations appended to this report, this section provides the conclusions reached by Scrutiny on the item under consideration.

Streets & Environment Sub-Committee

Item: Climate Action Plan

- 4.2** The Sub-Committee welcomed the Council's forthcoming Electric Vehicle Charging Point (EVCP) Strategy and welcomed the broader aspiration for 4,000 EVCPs to be installed across the borough by 2035 (both those installed by the Council and those installed by the private sector), and looked forward to seeing more detail on how this would be achieved with partners as the strategy was developed.
- 4.3** The Sub-Committee concluded that it would like to engage with the 'Croydon Green Network' ahead of the next time it considered the Climate Action Plan or other relevant items.
- 4.4** The Sub-Committee welcomed that 'Carbon Dioxide (CO₂) emissions estimates within the scope of influence of Local Authorities (Emissions per km² (kt CO₂))' would continue to be published as part of the Executive Mayor's Business Plan performance reporting and concluded that it would review these figures when the Sub-Committee next considered the Climate Action Plan.

Item: Waste Procurement Contract Management & Mobilisation

- 4.5** The Sub-Committee welcomed the introduction of 'dynamic scheduling' for street cleansing and the forthcoming regular schedule of street cleansing for residential areas under the new contract, which was not included under the previous contract.
- 4.6** The Sub-Committee welcomed the commitment to engage regularly with Ward Councillors, Community Groups, and Friends Groups through the Client Monitoring Team.
- 4.7** The Sub-Committee concluded that it would like to add the Waste Contract to the Work Programme, post mobilisation, at which point it would look at performance against the Waste Contract Key Performance Indicators (KPIs).

5 ALTERNATIVE OPTIONS CONSIDERED

- 5.1 None. It is a statutory and constitutional requirement for the Executive to receive and respond to recommendations made by Scrutiny.

6 CONSULTATION / PRE-DECISION SCRUTINY

- 6.1 The recommendations were developed from the deliberations of either the Scrutiny & Overview Committee or one of its Sub-Committees.

7 CONTRIBUTION TO EXECUTIVE MAYOR'S BUSINESS PLAN

- 7.1 Outcome 1: The Council balances its books, listens to residents and delivers good sustainable services:

Priority 4: Ensure good governance is embedded and adopt best practice. The Council must learn the lessons of past failures and embed sound governance processes to ensure that decision-making is transparent, open and honest. These must ensure effective control of our projects and programmes and encourage meaningful scrutiny and challenge.

- 7.2 Outcome 4: Croydon is a cleaner, safer and healthier place, a borough we're proud to call home:

Priority 1: Make our streets and open spaces cleaner so that Croydon is a place that residents and businesses can feel proud to call home.

Priority 5: Lead action to reduce carbon emissions in Croydon

8. IMPLICATIONS
